

BEAR CUBS NEWS

Washington University Nursery School 2019-2020
September 9, 2019

What we've been up to...

Thank you for attending the Popsicles in the Park event and Visiting Day! We have enjoyed getting to know the wonderful Bear Cub children and their families.

These first few weeks of school we will focus on learning all about the children, their interests and their personalities. We will learn and practice classroom routines and spend lots of time exploring a variety of learning materials, both inside and outside.

Please know that we welcome open communication and hope you feel comfortable contacting us with any questions or concerns that may arise. This is going to be a great year!

Marsha and Miriam

Looking Ahead

- September 16 & 23--Spanish
- September 24--Music
- September 25--School Photos
- September 30--Nature on the Move
- October 2--Art
- October 5--School Open House
11:30-1:30

Learning Centers

Everything the children do at school has a learning goal behind it. For example, did you know that stringing beads helps them develop fine motor skills and bilateral coordination (the ability to coordinate both sides of the body at once in a controlled and organized manner)?

Friendly Reminders

- Please send in or have your child wear socks if he or she doesn't like the feel of the playground sand. We spend lots of time outside and want them to feel comfortable playing!
- If you have not already done so, please send in a family photo and a baby photo before age one (4x6 or 5x7)
- Please make sure your child's cubby bin has a clean set of clothing at all times (including socks and underwear). The children are still getting comfortable using the bathroom at school and will be playing with water/exploring nature so we expect them to need a change of clothes periodically. We will send wet clothes home in a bag.
- Please reply to this email with any additional email addresses you want included on our mailing list (such as nannies, grandparents, etc.).
